Assignment Description

IFC seeks to hire the services of a firm (the Consultant) to conduct a market research on demand for alternative energy in the West Africa region, including Mauritania, Gambia, Guinea-Bissau, Guinea, Sierra Leone, and Liberia. The primary objective of the market assessment to help determine the potential demand for alternative energy for supplying power to large end-consumers, including utilities, mines, industry, etc.

For the purposes of this assignment, the definition of a alternative energy is the use of renewable energy (solar, small hydro, wind, etc.) and natural gas that are stand-alone power generation facilities or connected to the main grid.

Qualification Criteria

1. Provide information showing that they are qualified in the field of the assignment.
2. Provide information on the technical and managerial capabilities of the firm.
3. Provide information on the qualifications of key staff.
