ASSIGNMENT OVERVIEW

Assignment Title: 1265754 - Burkina Faso - National Multi-Tier framework Energy Access Household Energy Survey

Assignment Countries:  
- Burkina Faso

ASSIGNMENT DESCRIPTION

The World Bank-ESMAP team is implementing Global Energy Access Household Surveys to set a baseline to track progress towards Sustainable Development Goal (SDG) number 7 on access to affordable, reliable and sustainable modern energy by 2030. A reputed local firm with extensive experience in household surveys is sought to conduct the baseline survey on energy access using the multi-tier framework approach to track progress towards SDG7. The survey will be nationally representative and administered to both urban and rural localities. The firm will work with the World Bank-ESMAP to pre-test, finalize and implement the survey, clean and analyze the data. Data collection should be carefully monitored to ensure high-quality information.

According to World Bank data, access to electricity in Burkina Faso has increased from 13% to 25% of the population between 2010 and 2017. However, this access is concentrated in urban areas (65%) with rural areas remaining extremely underserved (10%). Grid connected households face load shedding issues due to insufficient electricity production and often suffer from power cuts due to recurring failures of the electricity network and the dilapidation of some generators. Additionally, only 10% of the population is thought to have access to clean cooking fuels and technologies. Pollution from solid fuel stoves causes eye problems and respiratory diseases in addition to environmental harm. This survey will collect data to determine how to close the gap in access to electricity and increase use of improved cooking solutions and non-solid fuels so that Burkina Faso progress towards the SDG energy objectives.

A reputed firm with extensive experience in household surveys is sought to conduct the baseline survey on energy access in Burkina Faso using the World Bank multi-tier framework approach to track progress towards SDG7. The survey will be nationally representative and will be administered in both urban and rural localities and will also include community surveys. The firm will work with the World Bank-ESMAP to pre-test, finalize, and implement the survey. Data collection should be carefully monitored to ensure high-quality information. The firm will provide capacity building to Ministry of Energy and National Statistics and Demography Institute (INSD) to ensure continuity on tracking of energy indicators. After completing the fieldwork, the firm will deliver the final dataset and summary report to the World Bank-ESMAP.

Interested firms should provide a brief summary of their qualifications to perform the services (MAX 10 pages). The short-listing criteria will be based on:

1. Experience in household surveys in Sub-Saharan Africa, and specific experience in Burkina Faso;
2. Experience in the energy sector and other types of infrastructure (e.g. water and sanitation);
3. In-depth understanding of the energy access sector and its socio-economic dimensions;
4. Strong technical skills in qualitative/quantitative research and data analysis;
5. Proven skill in using CAPI-tablet based data collection (Survey Solutions);
6. Cultural awareness in dealing with local communities, and interacting with government and local authorities; and
7. Excellent writing, analytical, and presentation skills in French and English

Preferences will be given to international or local firms with knowledge of Burkina Fasos energy sector and the general socio-economic context. International firms are encouraged to team up with local partners. The assignment is expected to start in January 2019 and be completed by July 2020.

Short-listed firms will be invited to submit a full technical and financial proposal for the final selection round.

#### ELIGIBILITY

The consultant will be a firm.

#### SUBMISSION REQUIREMENTS

Interested firms should provide a brief summary of their qualifications to perform the services (MAX 10 pages). Please note that the total size of all attachments should be less than 5MB. Consultants may associate to enhance their qualifications.

Interested firms are hereby invited to submit expressions of interest.

Expressions of Interest should be submitted, in English, electronically through World Bank Group eConsultant2 (<https://wbgeconsult2.worldbank.org/wbgec/index.html>)

#### NOTES

Following this invitation for Expression of Interest, a shortlist of qualified firms will be formally invited to submit proposals. Shortlisting and selection will be subject to the availability of funding.

Only those firms which have been shortlisted will receive a notification. No debrief will be provided to firms which have not been shortlisted.

#### Qualification Criteria

1. Provide information showing that they are qualified in the field of the assignment \*
2. Provide information on the technical and managerial capabilities of the firm \*
3. Provide information on the qualifications of key staff \*

\* - *Mandatory*

*Shortlisted consultants will be invited to respond to a Request for Proposal. Contract awards will be made in accordance with the World Bank Group Procurement Policies and Procedures.*
